Computer Guidance Corporation Releases Cloud-based, Construction ERP—eCMS v.4.1

Industry's #1 Business Intelligence and Analytics, Integrated Project and Financial Management, Browser-based ERP, Advanced Content Management and Intuitive Workflow

Scottsdale, Arizona – September 20, 2016 – Computer Guidance Corporation, the leading developer of cloud-based ERP solutions for the construction industry, today announced the official release of its flagship construction enterprise resource planning solution, eCMS v.4.1.

With over thousands of feature-rich innovations, user-driven simplifications and new unprecedented applications, eCMS v.4.1 provides commercial contractors with increased opportunity to run a *Smarter Construction* business. The new ERP release is built on three key distinctive disciplines:

- unlimited and unrestricted accessibility to applications and information for ultimate collaboration
- intuitive and all-encompassing business intelligence, data mining and content management for smarter business
- integrated financial and project management workflows for optimum productivity

The new eCMS v.4.1 applications include the release of Project Collaborator, Content Management, Forms Management, Email Archiving and Workflows, in addition to the further advancement of its eCMS Business Intelligence and Analytics, Launchpad, User Interface and Interactive Data Inquiry functions. eCMS v.4.1 is offered with cloud, on-premise and hybrid deployment options to provide maximum choice to customers.

“eCMS v.4.1 provides users ubiquitous access to real-time, integrated and accurate information and the ability to establish or redefine custom business processes and workflows to automate best practices,” said Mike Bihlmeier, President, Computer Guidance Corporation. “Our goal is to enable, empower and advance every user with simple yet powerful software solutions.”
