**Computer Guidance Corporation Releases eCMS v.4.1 Forms Application**

*A powerful yet simple application allowing users to replace any paper or Microsoft Word document with an electronic form that can be used online, or on mobile devices for on- or offline use*

**Scottsdale, Arizona – January 17, 2017** – Computer Guidance Corporation, the leading developer of cloud-based ERP solutions for the construction industry, today announced the official release of its eCMS v.4.1 Forms application.

The eCMS v.4.1 Forms application replaces any paper or Microsoft Word document with an electronic form that can be used on any device and online or offline with subsequent update. Data captured is integrated and stored within the eCMS ERP database for future searching, workflow routing, reporting and analytics. This easy-to-use application brings much needed efficiency and productivity to users trying to gather information quickly and effortlessly. The Forms application is ideal for Inspection Reports, Incident Reports, Disciplinary Forms, Leave Requests, Absence Reporting, Project and Safety Checklists, Equipment Repair, and more.

“Most businesses have gaps in their software systems that require certain documents and processes to be maintained offline,” said Steven Gross, VP of Client Solutions, Computer Guidance Corporation. “Our new Forms application is designed to eliminate these gaps while improving the speed, completeness, reliability and security of the information collected.”

**About Computer Guidance Corporation**

With over 20% of their client-base represented on top ENR lists, Computer Guidance Corporation has long delivered the leading construction-specific enterprise resource planning solution including financial and project management applications, #1 business intelligence, mobile technologies and enterprise content management. Scalable, custom configurable and available both cloud hosted and on-premise, eCMS serves the needs of thousands throughout North America and has been named as the ERP solution of choice by the AGC. Computer Guidance Corporation is part of JDM Technology Group, a global construction-specific software conglomerate that serves more than 45,000 users in 40 countries and 6 continents.
