M.C. Dean, Inc. Selects Computer Guidance's eCMS ERP Software

ENR Top 600 Electrical, Design-build and Systems Integration Firm Selects eCMS ERP for Its Integrated Financial and Project Management Applications supported by Advanced Business Intelligence and Content Management

Scottsdale, Arizona – March 14, 2017 – Computer Guidance Corporation, the leading developer of cloud-based ERP solutions for the construction industry, today announced that M.C. Dean, Inc., one the nation's largest electrical contractor, has selected Computer Guidance's eCMS Construction ERP for its continued growth and expansion.

M.C. Dean, headquartered in Virginia, offers a wide range of capabilities including electrical, electronic security, telecommunications, life-safety, instrumentation and control, and command and control systems. The firm serves a diverse group of markets containing Fortune 1000 corporations; universities; high tech and biotech firms; Federal; state, and local government clients; and other organizations with large scale, complex, and mission-critical infrastructure needs. M.C. Dean employs more than 3,500 professionals in offices throughout the Eastern United States, Europe and the Middle East.

During the evaluation process of eCMS v.4.1, M.C. Dean was initially drawn to Computer Guidance for its enterprise-class and construction-specific ERP applications that are flexible and customizable to meet the very specific needs of M.C. Dean's unique offerings and business model, but they also quickly recognized the strength of CGC's advanced business intelligence and data mining capability that they will leverage in many ways.

"Integrated data and the endless ability to view and share information within our organization were key factors in our decision to go with CGC's eCMS v.4.1," stated Doug Cummins, Chief Financial Officer, M.C. Dean, Inc. "We are confident that eCMS v.4.1 will support our strategies and improve our overall performance."

"This is yet another example of eCMS being selected to support the construction-specific software functionality needs of larger corporations," said Steven Gross, VP of Client Solutions, Computer Guidance Corporation. "When implemented, eCMS v.4.1 will serve as the backbone of M.C. Dean's technology infrastructure supporting thousands of employees across multiple locations in the world," added Gross.

About Computer Guidance Corporation

With over 20% of their client-base represented on top ENR lists, Computer Guidance Corporation has long delivered the leading construction-specific enterprise resource planning solution including financial and project management applications, #1 business intelligence, mobile technologies and enterprise content management.
