**Computer Guidance Corporation Unveils Innovative Launchpad with eCMS v.4.1**

*The innovative Launchpad of eCMS v.4.1 allows users to view, analyze, access and distribute specific and real-time information, launch applications and initiate workflows from a central interface and easy-to-use menu options*

**Scottsdale, Arizona – January 10, 2017** – Computer Guidance Corporation, the leading developer of cloud-based ERP solutions for the construction industry, today announced the roll-out of its innovative and graphically-rich Launchpad with the release of eCMS v.4.1 cloud-based construction ERP solution.

The eCMS v.4.1 Launchpad offers a streamlined user experience, custom menu options, a comprehensive reporting and dashboard capability, and access to all eCMS applications, workflows and data. The Launchpad was designed to allow users to access real-time integrated data and engage in daily integrated business processes in a central location all customizable to specific business needs. With the eCMS v.4.1 Launchpad, users become more efficient and effective in their daily activities as pertinent information is conveniently made available driving proactive business decisions and smarter business practices.

Highlighted features of the eCMS v.4.1 Launchpad include:

- Unlimited Customization
- Role-based and User-based Security
- Simplified Menu System
- Easy-to-use Drag-and-drop Capability
- Extensive Drill-down Functionality
- Full Customization of Information displayed in the Desired Format
- Immediate Access Point to Enterprise-wide Collaboration

“The eCMS v.4.1 Launchpad is an exciting yet critical part of our latest release as it serves as the gateway to all integrated data, processes and users. With its unlimited built-in flexibility, users can customize their menu options, data being displayed and workflows that they are part of,” said Mike Bihlmeier, President, Computer Guidance Corporation. “Our goal is to enable, empower and encourage our users to run smarter business with advanced collaboration and information-sharing tools and the Launchpad is a powerful example of this initiative.”
