WIMCO Corp. Reaps Significant Benefits of eCMS Cloud Deployment

Computer Guidance Customer Gains Efficiencies and Achieves Cost-Savings by Moving to the Cloud

Scottsdale, Arizona – September 20, 2017 – Computer Guidance Corporation, the leading developer of ERP software solutions for the construction industry, today announced that WIMCO Corp., has gained significant efficiencies and cost-savings by moving their Construction ERP to the Cloud.

WIMCO Corp. has experienced rapid growth in the recent years and has surpassed the capabilities of their IT infrastructure. Instead of investing in additional privately hosted IT systems and infrastructure, they looked to CGC for Cloud deployment and managed hosting services. Recent review of the Hosted eCMS implementation over 18 months yielded substantial cost and time-savings as well as significant efficiencies.

“We no longer spend time making decisions about capacity needs or coordinating updates and upgrades. We left all that behind when we moved to the Cloud and we now focus on our projects knowing that eCMS scales as our business demands it,” said Darlene Moore, Executive Vice President, Secretary and Treasurer, WIMCO Corp. “Our analysis indicates that we saved nearly \$100K annually being on the Cloud while our business has grown 237% in revenues over these past two years.”

“Thousands utilize our Hosted eCMS Construction ERP applications every day, relying on the reliability, scalability and flexibility of our solutions,” said Mike Bihlmeier, President, Computer Guidance Corporation. “We’re thrilled that eCMS provides WIMCO Corp. a competitive edge and we look forward to seeing their continuous successes.”

About Computer Guidance Corporation

With over 20% of their client-base represented on top ENR lists, Computer Guidance Corporation has long delivered the leading construction-specific enterprise resource planning solution including financial and project management applications, #1 business intelligence, mobile technologies and enterprise content management. Scalable, custom configurable and available both cloud hosted and private cloud, eCMS serves the needs of thousands throughout North America and has been named as the ERP solution of choice by the AGC. Computer Guidance Corporation is part of JDM Technology Group, a global construction-specific software conglomerate that serves more than 45,000 users in 40 countries and 6 continents.
